*As a Tier.3, PC Break/Fix, Repair Tech, I performed the following:
Supported and maintained client computer systems, desktops and peripherals. This included installing, diagnosing, repairing, maintaining, and upgrading all hardware, software and equipment while ensuring optimal workstation performance. I also troubleshoot problem areas in a timely and accurate fashion, and provided end user training and assistance*

Additional Professional Experience:

Multi Award Winning Professional Filmmaker – 2001 to Present Day-
<https://www.hislefilms.com>

From August 2001 to December 2006 (and continuing to present day), I traveled to Oklahoma City, Oklahoma; Austin, Texas; San Antonio, Texas; Portland, Oregon; and Indianapolis, Indiana, where I worked and trained full-time as a professional film actor. During this period, I had the incredible opportunity to train with some of the finest acting coaches available in the film industry, including Michelle DeLong, Pato Hoffmann, Donise Hardy, Van Brooks, Kristy Martin, Toni Cobb Brock, the late Jimmy Zerda, and Norm Silver (retired). I attended countless

auditions, was cast in numerous independent films, and took on various roles, collaborating with well-known Hollywood actors such as Luke Wilson, Terry Crews, Dax Shepard, and the late William Hurt, as well as directors and production companies like Corpus LLC & Content Films (Director James Marsh), 20th Century Fox (Director Mike Judge), and Roach Productions (Director Jay Roach). Now I Direct, Produce, Acting Workshops and Voiceovers

***Director**

As a movie director, I am the creative leader of a film where I translate a script into a visual narrative. I guide the actors' performances, decide camera angles, and collaborate with department heads (like costume, lighting, and set design etc.) to ensure every piece of the film aligns with my unified artistic vision

***Producer**

As a movie producer, I manage the business, financial, and logistical reality of making a film from conception to distribution. While I as a director oversees the creative vision, I as a producer secures funding, hire key cast and crew, oversee the budget, and handle distribution

***Acting Workshop Coach**

As an acting workshop coach, I guide performers to refine their craft through personalized training, scene analysis, and character development. My core duties include teaching acting techniques, running warm-up exercises, providing constructive performance feedback, and preparing actors for auditions and on-set work

***Voiceovers**

As a movie voiceover talent, my duties encompass a variety of off-camera vocal work, primarily categorized into narration (explaining the plot or the character's internal thoughts), character acting (for animated films), ADR (re-recording unusable dialogue), and trailer or promo announcements

Education:

Northwest Technical College

Graduated 1999
